**Director of Earthquake Risk Management and Director of the Geosciences Department**

Pacific Gas & Electric

Geoscience Dept. MC N4C, PO Box 770000

San Francisco, CA 94177

415-354-6433

Lloyd Cluff is Director of Pacific Gas and Electric Company's (PG&E) Geosciences Department and is responsible for PG&E's Earthquake Risk Management Program.

Prior to joining PG&E in 1985, he was Principal Geologist, Vice President, and Director of Woodward-Clyde Consultants in San Francisco. For 25 years he led a distinguished team of geoscientists and earthquake engineers serving clients evaluating earthquake hazards and assessing seismic safety of major critical facilities worldwide.

A few of his many professional honors include: recipient of the 2009 George W. Housner Medal, the most prestigious award of the Earthquake Engineering Research Institute; recipient of the 2006 Western States Seismic Safety Policy Council Award in Excellence for Lifetime Achievement in Earthquake Risk Reduction; recipient of the William Joyner Memorial Distinguished Lecture Award, from the Seismological Society of America and the Earthquake Engineering Research Institute, 2003; chairman of the Scientific Earthquake Studies Advisory Committee, appointed in 2002 by the Secretary of the Interior; recipient of the John Wesley Powell Award, 2000, the highest citizens' award from the Department of the Interior, for his lifetime contributions to seismic safety; awarded the Alfred E. Alquist Medal, 1998 from the California Earthquake Safety Foundation for his achievements in improving California's seismic safety; elected Fellow, 1992, in the California Academy of Sciences; and elected a Member of the National Academy of Engineering, 1978.
