Dr. Durgunoğlu earned his B.S.Civil Engineering in June 1968 from the Technical University of İstanbul, Turkey, and his M.S. in Civil Engineering (December 1969) and Ph.D. in Civil Engineering (June 1972) from the University of California, Berkeley, U.S.A.

A member of numerous professional societies, Dr. Durgunoğlu has extensive experience with earthquake engineering, city planning and environmental geotechnics, sewage treatment programs, lunar soil mechanics, highway/motorway projects, railway/lightrail/subway construction, airfields, viaducts/bridges, tunnels, pipelines/silos/reservoirs/harbours, power plants, industrial facility construction, as well as housing, shopping center, business complex and hotel construction.

Dr. Durgunoğlu is the author of over one hundred twenty national and international papers and nearly two hundred geotechnical engineering technical and research reports. He has written the chapter for Turkey in the “International Handbook of Earthquake Engineering, Codes, Programs, and Examples”. He has also prepared the country report, “CPT in Turkey” on Cone Penetration Testing to the symposium of CPT’95 held in Sweden.
